Inspector's Comments

The facility is connected to the Juvenile Courts building. This combination allows for the efficient process of admitting and removing a youth from secure custody. The facility seems very large it first impression, however when brought to each living unit and specialized area, the facility is operated in a very detailed and controlled manner. The sanitation of the building is a high priority of the facility administration. The Facility Operations Administrator produced a comprehensive cleaning schedule. The staff members in the different areas were well aware of the day's schedule and the operation of the facility as a whole. The disciplinary process in place shows attention to the need for redirection and possible sanction requirements for the choices of the youth. The education department of the facility works very well with the operations staff. The programming of the facility is a very focused entity within the facility. The facility is driven by the programming schedule instead of the operational needs of the JDC. The school is administered by the Regional Office of Education System. Each youth is entered into the school system a day or two after arrival. There are many programs in action at the school away from normal academics. The recreational schedule is active. The leadership of the facility motivate a calm and understanding operational philosophy at the facility. The staff and the youth feel supported and important. During the inspection, the facility was quiet and the youth were appropriate at all times. The youth were clean and utilized appropriate communication techniques. The facility staff were open and attentive to the youth around them. The staff members had a solid command of the schedule of the facility.
