Introduction

Murphysboro Life Skills Reentry Center (LSRC) is a minimum-security male prison within the Illinois Department of Corrections (IDOC) that housed 119 people on January 3, 2023. The John Howard Association of Illinois (JHA) conducted a modified short [Measuring the Quality of Prison Life](#) (MQPL) survey by providing enough survey packets (consisting of the [MQPL survey](#), an informed consent notice/instruction sheet, and a privileged mail prepaid business reply envelope addressed to JHA) so that every person incarcerated at Murphysboro had an opportunity to participate in the voluntary and anonymous survey if they chose to do so. JHA received 22 responses to the MQPL survey from people at Murphysboro through May 3, 2023, representing approximately 19% of the static population.

The MQPL questions are organized by dimensions: harmony, professionalism, security, and well-being & development (descriptions on next page). JHA's survey also included questions on demographics of respondents as well as some questions JHA had asked in previous JHA surveys. Results are presented in this report first in chart format, followed by table format. Tables are organized in the order that questions appeared on the survey.
